EDUCATION

B.S. Mass Media: Broadcast Production

Northwest Missouri State University

Expected Graduation: Spring 2027

Transferred from Kansas City Kansas Community College

SKILLS

Software

- Adobe Creative Cloud
- DaVinci Resolve
- OBS Studio
- NewBlue
- Blackmagic Design
- TriCaster

Live Production

Multi-camera Directing

- Live shot selection
- Headset coordination
- Real-time pacing

Camera Operation

- Zoom control
- Play tracking
- Broadcast Setup

Live Graphics

- Scorebug integration
- Lower thirds
- Director timing

PROFESSIONAL SUMMARY

Broadcast production student balancing technical storytelling, live MIAA/NCAA Division II sports broadcasts, and digital content creation. Produce “Hidden Variables” segments from script through final edit and graphics. Support Catvision multi-camera productions from setup and live execution through teardown. Develop social media content for “Digging Deeper” to extend broadcast reach. Seeking a summer internship in media.

CATVISION – NORTHWEST MISSOURI STATE ATHLETICS

Camera Operator/Production Assistant | August 2025 - Present

- Operated broadcast cameras for NCAA Division II football, basketball, soccer, volleyball, and baseball
- Served as High Wide camera for Bearcat Football, delivering the primary field-wide program angle while tracking fast-paced play under live director instruction
- Directed and produced multi-camera sports broadcasts in real-time control room environments
- Executed live graphics integration to support seamless program output
- Contributed to off-campus productions, including graphics operation for the Northwest vs. Pitt State Conference matchup at Children’s Mercy Soccer Stadium

PACK MAKER – HIDDEN VARIABLES (KNWT TV)

- Produced 3-minute technical segments translating complex gaming systems into accessible visual narratives
- Managed full production workflow including scripting, shooting, editing, and motion graphics design
- Built episodes from concept through final export in Adobe Creative Suite

INDEPENDENT VIDEO EDITOR

- Produced cinematic motorsport and Formula 1 edits emphasizing precision pacing and advanced color grading
- Structured edits around race dynamics, momentum shifts, and layered sound design
- Managed complete post-production workflow from OBS capture through final delivery
